LAKE ELLEN BAPTIST CHURCH

TROOP FL-2327

EGG DROP COMPETITION

Trail Life

Each participant will build a handheld carrier designed to protect a raw, uncooked egg from breaking when dropped from at least 15 feet above the ground. The winner will be the participant whose egg survives and whose carrier is the lightest among successful entries.

Competition Rules:

- ✓ Uncooked eggs will be provided
- ✓ Carrier must allow an egg to be loaded within 35 seconds
- ✓ No parachutes, drones, or helium

Important Notes:

- ✓ Keeping the egg unbroken is required, but not enough to win.
- ✓ Carriers will be weighed before the competition, prior to egg loading.
- ✓ Creativity counts! The most clever designs are often the lightest and most effective.
